

PROFILE

I'm Aashish Kandel, a Computer Science student at Birmingham City University passionate about web design and development. I create clean, responsive, and user-focused websites using HTML, CSS, and JavaScript. Alongside my studies, I work at McDonald's, where I've developed strong teamwork, communication, and time management skills that influence my approach to projects with precision and creativity. I'm dedicated to expanding my expertise and building a successful career in front-end development and web design.

PROFESSIONAL EXPERIENCE

AWS Solutions Architecture, Solutions Architecture Job Simulation

04/2025 – 05/2025

- Designed a scalable hosting setup using AWS Elastic Beanstalk

PROJECTS

Nepalicious

Nepalicious is a user-friendly website for a restaurant, featuring a 'Book a Table' option, a detailed menu list, and a 'Contact Us' section, offering a seamless experience for visitors.

Portfolio

My portfolio website showcases my web design and development skills, featuring a collection of my projects, technical expertise, and contact information, all designed to demonstrate my capabilities in web development.

Wildfire Detection

A university project demonstrating an IoT-powered wildfire detection system with real-time monitoring, instant smoke and heat alerts, and mobile accessibility. Designed to improve early fire response and safety using smart detection technology.
